

Ceramic Mug Evaluation Rubric

A Framework For Assessing Brandon's Mugs

This rubric is designed to assess what Brandon Blaylock considers to be a good mug. It's focused on his personal aesthetic and functional considerations.

Quality	Does Not Meet	Partially Meets	Fully Meets
Ergonomics	Uncomfortable handle, sharp edges, chunky or awkward rim.	Hard to wash, holds less than 300ml, unbalanced weigh, wobbles on tablet	No obvious awkward physical traits
Texture	No textures or texture seems accidental	Some texture but seems inconsistently applied	Texture is consistent and interesting
Glaze Quality	Glaze is uneven, pin-holed, or crawling.	Glaze is consistent but lacks depth or color development	Glaze is fully developed and multiple glazes have crisp delineations

Piece Name: _____

Evaluation:

Ergonomics: ☐ None ☐ Partial ☐ Full
Texture: ☐ None ☐ Partial ☐ Full
Glaze Quality: ☐ None ☐ Partial ☐ Full
